

# Set A Personal Access Token

1) In Figma, go to your Account Settings and create a new access token. Then copy it.

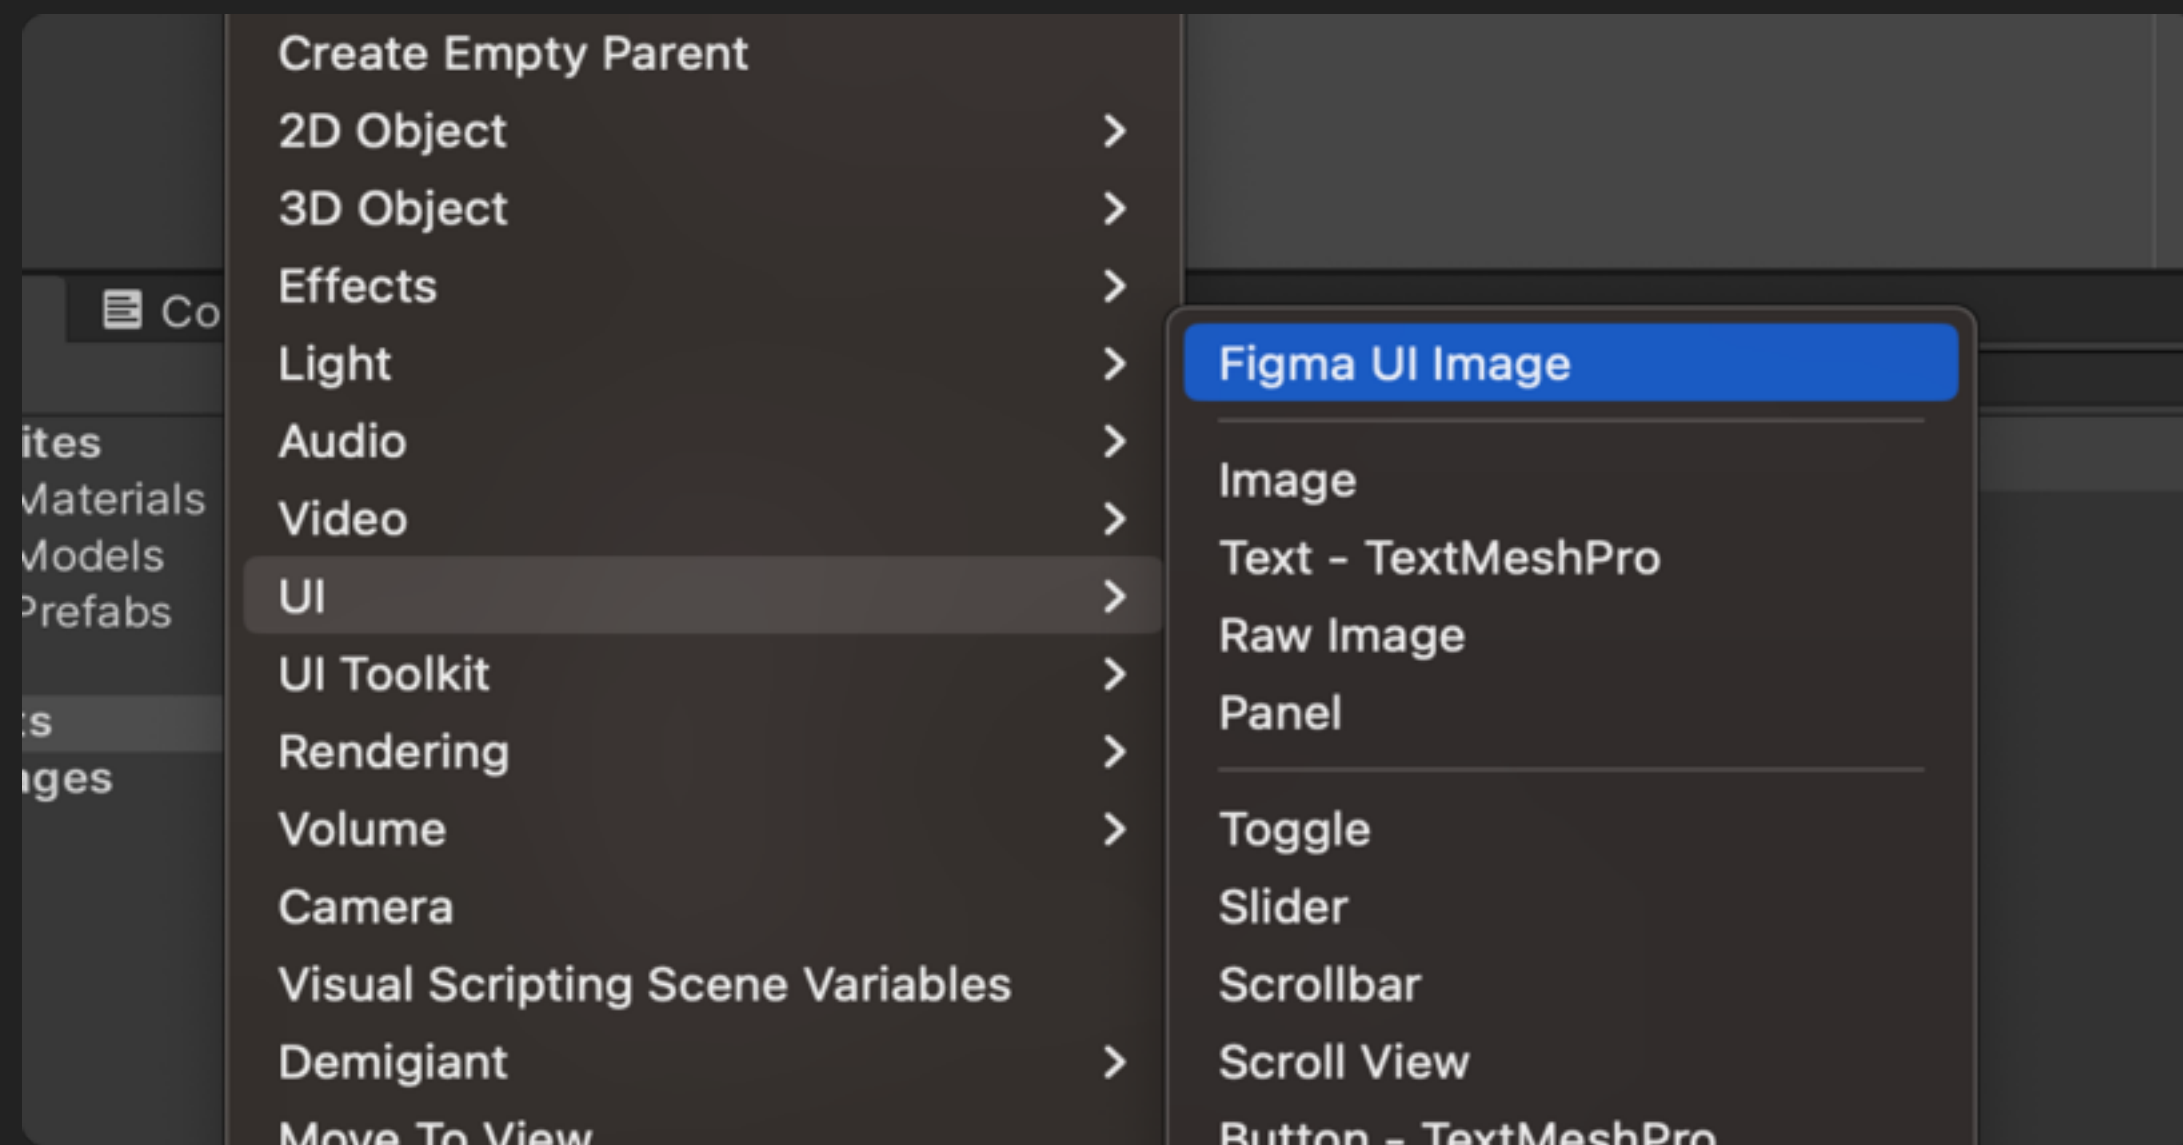

2) In Unity, after installing Figma UI Image package, go to Tools > Figma UI Image > Settings. Paste it and apply.

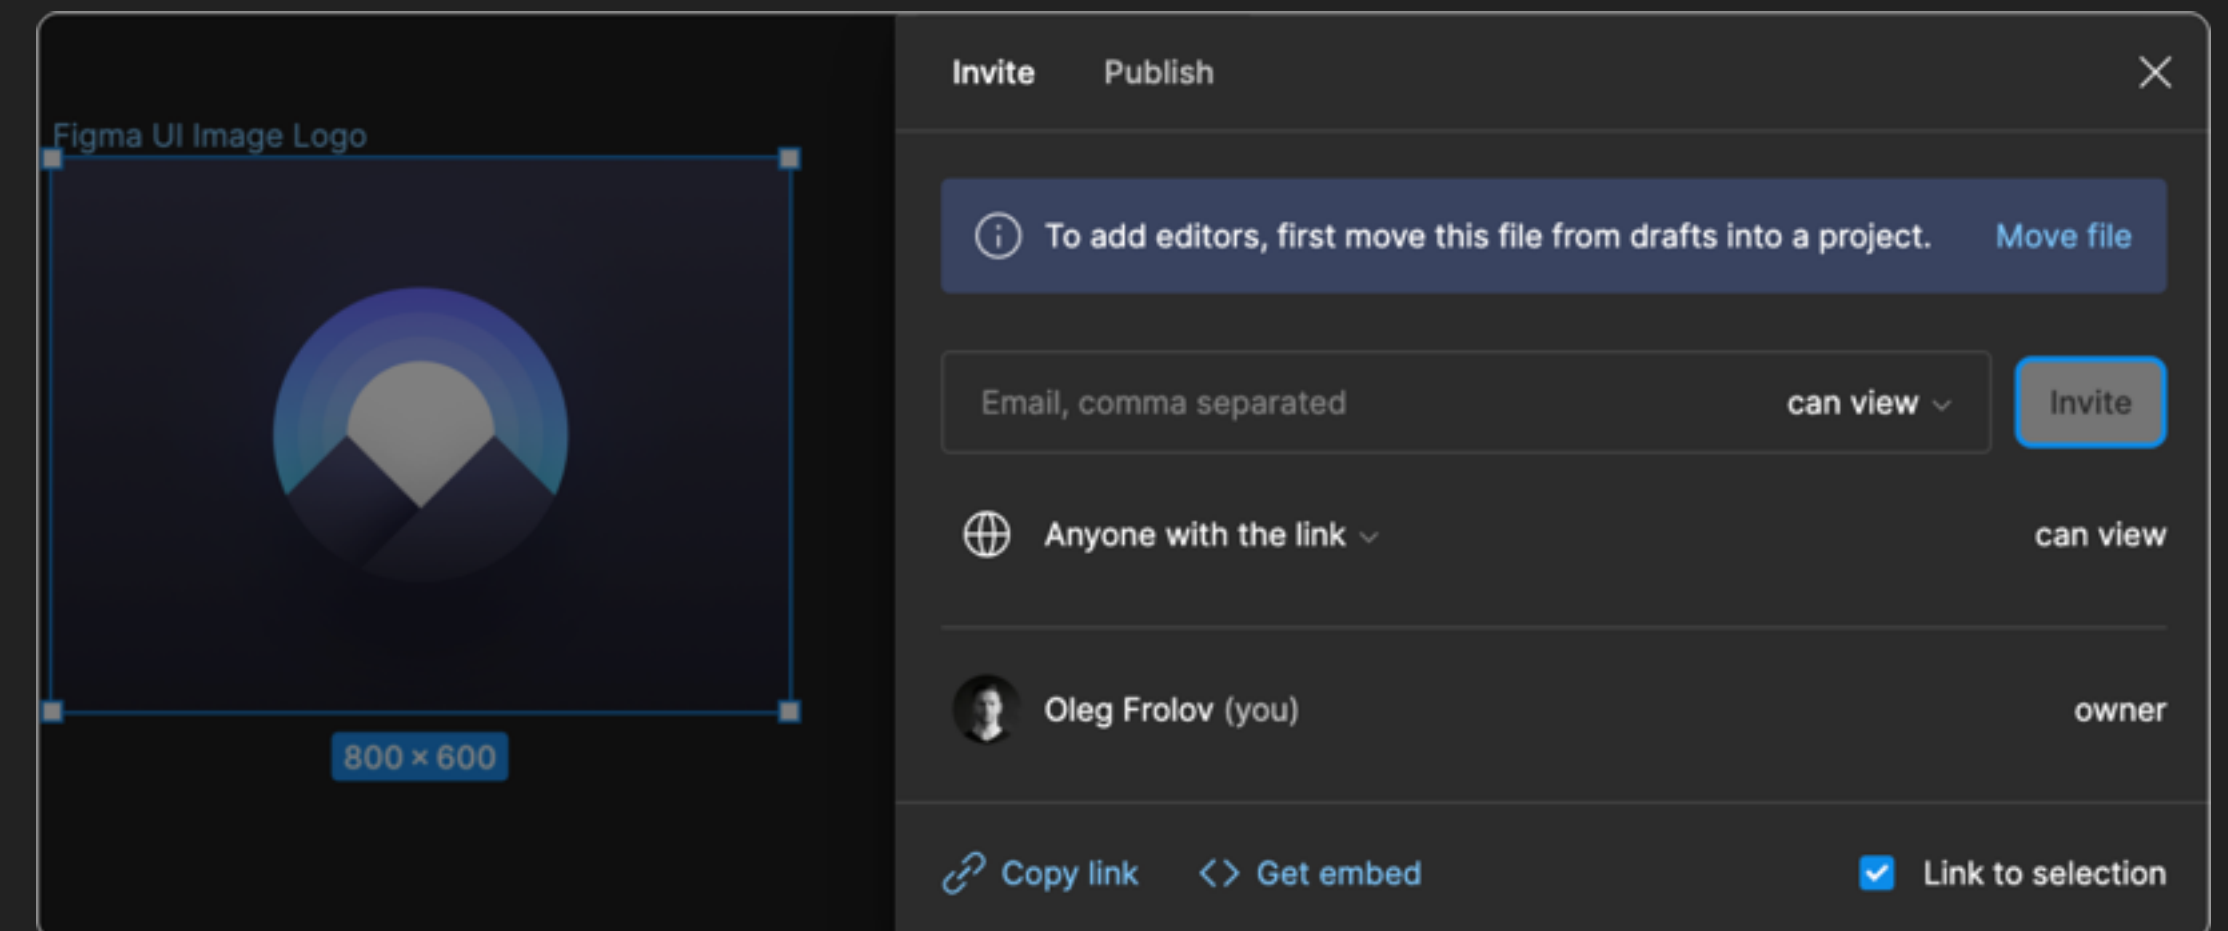

# Create A Figma UI Image

1) Right Click in the Hierarchy panel, then select UI > Figma UI Image.

2) Select a layout in Figma and press Share. Copy the link. Make sure that “Link to selection” is checked.

3) Paste the link and press the Update button.
